

PrestoPay - The Easiest, Fastest Way to Pay for your SCRIP purchases!

If you want the fastest, safest way to pay for your scrip orders, sign up for our secure online payment system, PrestoPay! PrestoPay uses the same Automated Clearing House (ACH) process used for billions of transactions every year, including payroll direct deposit and Social Security. It's been around since 1974 and has been used to process almost 22 billion transactions, so it's well established and used by banks everywhere. At GLSC, we've been accepting ACH payments through PrestoPay since 2008, and we've invested the time and money required to keep your accounts safe.

ACH transactions are regulated by the Federal Reserve Bank and the Electronic Fund Transfer Act, and must follow rules established by NACHA, the Electronic Payments Association. Many times when you use a paper check, the merchant actually converts it electronically and processes it as an ACH transaction anyway.

On top of the standard ACH security, we have an extra layer of security to keep your information secure here at GLSC. All the information you enter for PrestoPay on ShopWithScrip is transmitted via secure data links, and all your account information is encrypted. "Encrypted" means we store your data in an unreadable format. We have updated and invested in all the latest computer network security protocols, as defined by the Payment Card Industry. For us, your security comes first! [Click here to learn how to sign up and start paying online with PrestoPay.](#)
